

EARLY LEARNING, LANGUAGE AND SOCIAL SKILLS ASSESSMENT

Understand how to support your child to meet their milestones and gain a sense of achievement

WHAT IS THIS ASSESSMENT?

This assessment identifies a child's strengths and challenges in language, learning, social and daily living skills. In addition to highlighting any behaviours which could impact on their ability to develop new skills, you will receive a comprehensive report including recommendations to support your child's language, learning and social skills. The focus will be on where to start with teaching new skills, supports improved milestone development

WHAT IS BEEN OFFERED?

- Assessment completed by a Registered Psychologist specialising in Applied Behaviour Analysis
- Includes 1:1 activities with the child, observations at home and in the community and discussions with family/whanau members
- Option of follow-up sessions to support ongoing goals

WHO WILL BENEFIT FROM THIS?

Children up to 8 years of age whose family/whanau would like to:

- Guide the development of language, social and learning goals for their child
- Establish immediate, secondary and long term priorities for their child
